

Community Support Program

At CMI Safe Co Australasia, we are committed to supporting the communities where we live and work. As a trusted Australian manufacturer of safes and vaults, we understand our role in helping create safe, inclusive, and resilient communities.

This program outlines how we give back through donations, free services for local religious organisations, and support for local employment.

Our Commitments

1. Donations and Support for Local Groups

We will:

- Donate safes or storage products to community groups, charities, and schools that need secure storage.
- Offer financial or in-kind support to local projects that promote community safety, education, or wellbeing.
- Share surplus materials or technical advice to support training programs or not-for-profit projects.

2. Free Services for Religious Organisations

We will:

- Provide free installation or servicing of safes for local churches, mosques, temples, and other places of worship.
- Offer product advice and support to help protect community donations and records.
- Prioritise religious groups near our main facilities.

3. Working with Local Government on Jobs

We will:

- Work with local councils and employment services to support jobseekers and workers affected by job losses in other industries.
- Offer tours, internships, or introductory training to help people explore careers in manufacturing.
- Support community employment programs and job expos.

Managing the Program

- Our team will review and manage requests for support.
- We will track our impact and review this program each year.
- All support is offered fairly and based on clear criteria.
